

24<sup>TH</sup> August 2021

Dear Parents,

We are gladly announcing to you the free PCR Testing Locations for Students as per given by ADEK (REF: PE/K12E2021/028) for the Philippine-Emirates Private School.

The schedule on the table below indicates the school code, school name, and location of the school's designated screening center. Take note of the following;

- ✓ Students shall maintain the PCR testing validity of 14 days by ensuring they visit the same designated center to obtain their free PCR test.
- ✓ Students have the option of obtaining a PCR test at any private screening center of their choice at their own cost.
- ✓ Parents of young children (below 12-year-old) or students of determination will have the option of a saliva PCR test instead of a nasal PCR test.
- ✓ Students may have varying starting dates depending on the school reopening models (e.g., alternating day, alternating week).
- ✓ Accordingly, they need to ensure they have a 14-day valid negative test prior to their first day of physically attending school. It is the responsibility of the school to ensure everyone physically attending school complies with these requirements.

<b>Round Testing 1</b>	<b>Alternating Round 1(Physically first week back to school)</b>	<b>Working Hours</b>	<b>Service Provider</b>	<b>Testing Center</b>
August 26, 2021	September 1, 2021	6 AM to 11 PM	G42	Biogenix Labs- G42 Health Care Masdar City
